It is our great pleasure to **welcome you** to the **SpineXpert Boot Camp – Ahmedabad 2025**, hosted by **SpineXpert Academy**.

This program is a platform designed to bring together spine surgeons, orthopaedic experts, and healthcare professionals to share insights, explore the latest advancements, and engage in hands-on learning focused on spinal care and surgical excellence.

Ahmedabad, a vibrant city known for its culture and innovation, sets the stage for this exciting gathering of minds. We are confident that this program will offer valuable knowledge, foster meaningful connections, and inspire continued excellence in spinal treatment and care.

We sincerely thank all participants, faculty members, and collaborators for joining us.

Your presence makes this event truly special, and we look forward to an engaging and enriching experience together.

Warm regards,

Team SpineXpert Academy

Reimagining the Future of Spine Surgery

What to Expect :

This isn't a conference. This is a transformation. Spinexpert Boot Camp 2025 is a high-intensity, no-nonsense experience for spine surgeons ready to sharpen their skills, deepen their strategy, and embrace the future of spine surgery — head-on.

Why You Should Be There :

- No lectures. No slides. All substance.
- 2 immersive days combining strategic planning, complication management, and technical mastery
- Superstar faculty sharing real-world insights and failures, not textbook theory
- Decision-making panels, surgical planning masterclasses, and surgical video breakdowns
- Honest conversations on AI, robotics, patient communication, and practice building
- Ethics, branding, and the mindset to thrive inside and outside the OR Master 10–13 Core Technical Skills Hands On & Mentored

Ready to Think Sharper.. Cut Smarter.. Lead Forward..

Seats are limited. This is not to be missed.

Reimagining the Future of Spine Surgery

Day 2

Features a power-packed rotation across 10+ practical spine surgery stations, designed to solidify your foundation and elevate your technique. Expect real-time practice in areas like endoscopy, percutaneous fusion, anterior approaches, deformity correction, neuromonitoring, injection techniques, and more all on high-fidelity models under expert supervision.

Who Should Attend :

Spine surgeons in the first 2–10 years of practice who are :

- Looking to fine-tune their technical game
- Hungry to learn from experienced mentors
- Eager to stay relevant with emerging tools and technologies
- Ready for a bold, interactive format that challenges and inspires

Ready to Think Sharper..

Cut Smarter..

Lead Forward..

Seats are limited. This is not to be missed.
